SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	The authors showed possibilities to improve techniques in liquid biopsy. The article is good and interesting. The only problem is the number of patients studied but I suggest to include "preliminary results" or "alternative experimental model" in the title of article.
