SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Spelling and grammar. Ex1: Line 10 "In 1966", "in" should not be capitalized. Considerable editing for writing style pertaining to grammar is required as there are some run on sentences not fit for scholarly publication. Citations are inappropriately executed within the manuscript. Rephrase lines 97-100, what the author is trying to say is unclear. Many of the figures are sourced from other works; when possible they should be produced as original figures with referencing, or appropriately cited. HIGHLY RECOMMEND employing editing service for correction of writing style, grammar and spelling.	
<u>Optional/General</u> comments	A well-introduced secondary review of primary literatures on the topic with a historical perspective as well. Content of the manuscript provides a well-rounded overview of cancer treatment. HIGHLY RECOMMEND employing an editing service to correct errors in writing style before publication.
