PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	It would be worth to know detailed results of Pap smears in both groups (no of ASCUS, AGUS, LSIL, HSIL). Couple of printed errors are present (for example: small and large letters)- manuscript needs revision for such errors. English is good. Methods and results are well chosen and presented. Discussion is interested and references are properly chosen.	A table showing the detail cytology results has been inserted in the result section You are highly appreciated for taking your time to review this manuscript.
