PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	No comment	No comment
<u>Minor</u> REVISION comments	No Comment	No comment
<u>Optional/General</u> comments	In this article (Ref.:Ms_JCTI_35465 Title: Metastatic tumor of the spermatic cord from pancreatic cancer: A case report), the authors reported a case of metastasis to the spermatic cord from pancreatic cancer. A 60-year-old patient complaining of pain and elevation of the right scrotal contents, who had been treated for pancreatic cancer, was suspected of having spermatic cord tumor. He underwent high orchiectomy for pain management and pathological diagnosis. The tumor was a metastatic adenocarcinoma from pancreatic cancer. Pancreatic cancer accompanied by spermatic cord metastasis is extremely rare. This case report is very interesting	Thank you very much.
