Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Need to focus more on the flow of the introduction, also need to add the aim of the study. Better to add some studies that support the main objective or aim of the study. Same with the methods plz focus more on the flow.	We added the aim of the study and some information about present principles of surgical treatment of long bones metastases with references on other studies. Section 37 - 47
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	I found the article focus on an interesting topic, and the results are valuable.
