PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript is well organized with excellent clarity and presentation. Also it represents original and novel work about novel therapeutic target in the field of HCC. The written language is good. The author widely described the issue in broad survey. Although some minor corrections should be performed that illustrated in the attached PDF File, including parts of introduction, conclusion and the missed part(List of abbreviations) . On other hand , the part of discussion should be rewritten to illustrate the possible mechanisms that causes the over expression of ABL1 in HCC	Thanks for the reviewer's positive comments. We have made the corrections as the reviewer suggested. We also rewrote the discussion part to illustrate the possible mechanisms that causes overexpression of ABL1 in HCC.
Minor REVISION comments	List of abbreviation is strongly needed	
Optional/General comments	The manuscript is accepted after minor revision
