SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**Self-breast-examination practice should be added in title. Pattern of journal should follow in abstract. Write the statistics of breast cancer in Nigeria or Africa?** **Description of result should be explanatory related to each table and diagram one by one. Write legends Below each diagram.** **Show the Demographic data in table. You can also compare the aware and non-aware population of market by using t test and can give the statistical significance.**	
Minor REVISION comments	Present the Question related to diagnostic tools about awareness if included in questionnaire form because self-examination is proved little important in evaluation of breast cancer. Mammography is unable to diagnose all types of breast cancer.	
Optional/General comments	Many studies have been done for prevention of breast cancer in Nigeria. What is the impact of these studies on prevalence in Nigeria. Similarity index is 48%. Internet source 45%, student papers 32%, publications 26%
