	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	No.	
<u>Minor</u> REVISION comments	The submitted manuscript titled "Epidemiology, diagnosis and treatment outcomes of skin melanoma in the Republic of Belarus" is a research article that aims to examine incidence of skin melanoma in the Republic of Belarus over 25 years. The findings reported and further developed in its discussion provide a certain insight into the medical and social significance of skin melanoma and are of interest for this specific research field, while also falling within the scope of the journal. This is a clear article analysing the skin melanoma incidence risk. The paper is well-documented, and contains an interesting discussion.	
<u>Optional/General</u> comments	No.
