<u>Compulsory</u> REVISION comments	This case report is very interesting since it describes a rare case report of ganglioneuroma of deep face in a young boy. The title is adequately informative, grammar and style are clear and concise. The length manuscript is adequate and the paper is well organized and written. Key words are appropriate. Non plagiarism has been found. The problem investigated is well defined and the purpose of the work clearly stated. Hystological images well document this case report. The references are cited correctly, listed in the required style and relevant literature is quoted. The use of illustrations and relative captions are appropriate. Overall scientific priority is high. So, this paper can be considered for publication on this journal.	Thank you.
