PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Abstract: Do not use short forms in aim. Line "who required" Mention results as 46.7% an not 46,7% Explain 24-108 in line 28 Results: representation of percentage values appropriately. Explain with details the cause for the death of the patient. Kindly follow the author guidelines for representation of tables & figures. "Tables and figures should be presented as per their appearance in the text. It is suggested that the discussion about the tables and figures should appear in the text before the appearance of the respective tables and figures. No tables or figures should be given without discussion or reference inside the text." Discussion: revise the word "applied" in line 108. There is a difference of 1 patient between males and females and hence cannot be said that the incidence is higher in line 111. References: reframe ref no. 10. The year of publication has to appear before	1. Aim was corrected. 2. percent values have been corrected. 3. shortest follow-up 24, longest follow-up 107 months 4. death cause was revealed. 5. The tables and figures were ordered according to the text. 6. Line 108 has been changed. 7. Line 111 has been changed. 8. reference date corrected.
