

SDI Review Form 1.6

Journal Name:	Journal of Cancer and Tumor International
Manuscript Number:	Ms_JCTI_38860
Title of the Manuscript:	Colon Cancer: Epidemiological And Histopathological Aspects In Cameroon
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The Discussion section was overly long and more a general review about colorectal cancer than the actual data of the paper. It needs to be condensed and focused. HNPCC is not the major risk factor for colon cancer in the West, most cases are sporadic and not hereditary. Also, are there any speculations for the increase in incidence other than increased awareness and screening, have there been changes in lifestyle?	
<u>Minor</u> REVISION comments	The whole paper needs to be carefully proofread. It is full of spelling, grammar, and formatting errors. There is an entire (small) paragraph repeated - Lines 83-85 and 88-90. Decimal points should be consistently periods and not commas. Male/Female should be M/F not H/F. In the first sentence of the Discussion, the first "digestive" should actually be "colorectal."	
<u>Optional/General</u> comments
