General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	This is the report of 2 cases of 2 children of different ages and stages that presented anaplastic large cell lymphoma, which were treated with chemotherapy schemes according to their stage. However, the author does not specify how long the follow-up patients have once the treatment is finished and its current status. On the other hand only mention of toxicity but it would be recommended to include a table of both cases that included the demographic, clinical data, the type of treatment, hematological and non-hematological toxicity according to the classification of the global organization of the Health.(OMS)	
<u>Optional/General</u> comments
