

SDI Review Form 1.6

Journal Name:	Journal of Cancer and Tumor International
Manuscript Number:	Ms_JCTI_42159
Title of the Manuscript:	Patterns of care and factors affecting it in Small Cell lung Cancer – Analysis of 3 years data from a Tertiary care Hospital in India
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Tabal1. The title of the table should go at the top of the table and not below the legend. The same is valid for Figure 1-4, which do not have legends. Some acronyms must be defined in parentheses since the reader is not obliged to know them. For example: ECOG, PCI, D 1 and D 1-3 in chemotherapy cycles, EP treatment regimen. In Figure 1, the list of stadiums is very blurred, as is the case with the types of treatment shown in Figure 2. The discussion is very unproductive and short, in fact only has 11 references and I can not understand that adds this work to the knowledge of the pathology. Finally, the bibliography is not only scanty but also very old. From Checho the most recent reference is from 2008, 10 years ago.	
Minor REVISION comments		
Optional/General comments
