<u>Compulsory</u> REVISION comments	This research paper brings information about Managed and unmanaged culture of fishery system along with the specific link of Water Quality and Plankton Production. Firstly, I would like to thank that study.	
<u>Minor</u> REVISION comments	Need some minor changes in different parts of the manuscript; otherwise it is suited for publication. DISCUSSION part is too extensive, it required more brief and specific. 1. In line no. 59 correct the Latitude and Longitude of Haryana. 2. In line no. 86-87, what manual (1998). Use updated edition APHA lab procedure. 3. In page no. 90, biological oxygen demand (BOD) make it proper by writing the initial word in capital. 4. In table 1, the right symbol formula is KMnO_4 , not KmNO_4 . Correct it. 5. In line no. 105 make sure initial letters capitalized Net primary productivity (NPP). 6. In line no, 116 and 117, provide a single space between numeric and unit (kg) characters. 7. Reference no. 6, 7, 25 page nos missing. 8. Need some result analysis of phyto/zoo plankton variation (higher and lesser group).	1. The Latitude and Longitude for Haryana was corrected. 2. This was corrected in the citations and the reference section. The updated APHA manual was added. 3. The Biological Oxygen Demand was corrected in the manuscript. 4. The name for KMnO_4 was corrected. 5. The letters for NPP was corrected. 6. Space was added between numeric and unit (kg) characters. 7. Page numbers were added except for the this reference where page numbers were not available. 8. In results, paragraph 3, some analysis of plankton results is shown. The results are elaborated more in the discussion section with possible explanations. Adding more information in the results section will possibly cause repetition.
