

SDI Review Form 1.6

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_30688
Title of the Manuscript:	Analysing the nexus between climate variability and tomato (<i>Lycopersicon esculentum</i>) production in the Offinso North District, Ghana
Type of the Article	Experimental Research

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	In your abstract, you need not to include AIM, METHODOLOGY, RESULTS AND CONCLUSION, as written in line 5, 8, 13 and 18 respectively. The heading is not necessary. The biodata of the respondent is missing; you need to show the number of male and female, the range of their experiences in farming, level of education e.t.c.	All the headings in the abstract have been removed as directed. The biographic data of the respondents have been included in the work.
<u>Minor</u> REVISION comments	Line 41 can better be restructured, the use of under the mercy is not appropriate in scientific research. Reference Is needed for the statement line 37; Anthropogenic factors are widely argued as the major drivers that have influenced the oscillations of 38 key climatic variables such as temperature and rainfall	The phrase 'under the mercy' has been replaced with more acceptable phrase. The appropriated referencing has also been effected.
<u>Optional/General</u> comments	The research is well structured with good write up, except for some corrections	The minor corrections have been duly effected.
