

Editor's Comment:

Decision for manuscript number 2016JEA131025 entitled 'Modelling the Dual Potential of Cowpea in The Lawra-Yagtuuri in the Upper West Region' written by Puoviel Yengbaar Evans, Jakperik Diogban, and Adjabui Michael Jackson

Following evaluation of all documents related to the manuscript I agree with Reviewers that the manuscript may be acceptable for publishing in Journal of Experimental Agriculture International. Although, the manuscript is improved comparing to the original submission, it still needs correction. In my opinion the manuscript should be again reviewed, because some new results are added to the text. They were added according to the review of Dr. Smart Asomaning Sarpong, so the manuscript should be reviewed at least by this Reviewer.

1. The manuscript may be considered for publication only as Short Research Article.

2. The manuscript must be prepared according to the Journal requirements. The Author's Instruction and the MS word SDI paper template is available at <http://www.sciencedomain.org/page.php?id=general-guideline-for-authors>. Corrections which must be introduced are, for example:

- References must be numbered in the text ([1], [2-5] etc.) and listed at the end of the manuscript in order they appear in the text,
- Paragraph COMPETING INTERESTS must be added,
- List of references must be prepared according to requirements of the Journal.

3. All tables must be self-explicable, so all abbreviation and denotations must be explained below tables.

- Table 1: improve description below the Table to better clarity.
- Table 2: B, Df, and Sig must be explained.
- Table 3: Level 0, 1, 2, 3, df, and sig must be explained. By the way, unify spelling.
- Table 4: DF, SS, MS, F, and P must be explained
- Table 5: R, F, and Sig must be explained

4. Appendix is not understandable. Graphs are described not enough. An appropriate caption of the Figure is missing. Number of the Figure is wrong. Description of OY axis is missed on one graph. It is not understandable why the Figure is added as Appendix but not it is included to main body of the text?

My decision is: Re-consider after correction and re-evaluation by the Reviewers.
