SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write here/their feedback here)
Compulsory REVISION comments ,w	how can you measure urea in birds? Uric acid the N waste/excess form. It should be deleted from the manuscript! k should be capital (K) Without performance data, paper is incomplete! Production data also confirm whether this product could be replaced with corn (maize) It would be good to present picture of COLOCASIA ESCULENTA plagiarism issues:- The paper I guess split. The paper should include production data.	Serum uric acid (urate) has been deleted. However, serum uric acid could be measured. Nuzifi and Asasi (2001) had equally measured serum uric acid in quails. Serum uric acid is an indicator of a healthy kidney and heart (Cheng et al 2013). Performance data has been included in the introduction. Pictures were not taken at time of research. Performance has been published elsewhere. However, it should be noted that Obi,M.B. is same person as ABANG,F.B.
Minor REVISION comments		
Optional/General comments
