--	---------------------------	--

SDI Review Form 1.6

<u>Compulsory</u> REVISION comments	This paper is generally well written and presents the results of an exploratory study in classical biological control for an important weed pest. The findings represent an important step. To the contrary, the paper is valuable to the literature in its present form.	Literature will be updated
<u>Minor</u> REVISION comments	p. 4 . . . around the fringes of forests.	Will be revised accordingly
<u>Optional/General</u> comments
