SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Compulsory REVISION comments	Kindly make the corrections/changes as highlighted in the main text in the document.	I have integrated all the comments of the reviewers as requested in the main text.
Minor REVISION comments		Language editing has been reviewed. Figure 3 has been removed from the text. Therefore, figure 4 has become figure 3. I have fused table 2 and 3 into table 2, then table 4 and 5 into table 3. Therefore table 6 became table 4, while table 7 became table 5. The number of tables have finally been reduced from 7 to 5. Many of the sentences have been reformulated for clarity. Three references 7, 8 and 42 have been added, while the former reference 35 and 36 have been moved out.
Optional/General comments		The manuscript has reduced in length and seems to have undergone serious improvement
