**PART 1: Review Comments**

|                                            | <b>Reviewer's comment</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | <b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>                                                                                                                                                                                                     |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><u>Compulsory</u></b> REVISION comments |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b><u>Minor</u></b> REVISION comments      | <p>1- Authors must provide the appropriate references for the methodologies adopted for growth parameters, e.g. RUE, RCGR, PAR...</p> <p>2- Please avoid to use same sentences in abstract and introduction, e.g. objective statement.</p> <p>3- Clearly mention the statements regarding your findings and especially in conclusion section.</p> <p>4- Use proper references in 'Statistical analyses'</p> <p>5- Methodology: 'Two experiments were performed:', please modify this sentence... too short</p> <p>6- Provide details for methodology adopted for yield parameters.</p> | <p>1. References has been included</p> <p>2. Abstract has been changed.</p> <p>3. It has been done.</p> <p>4. The statistical analysis are closely related to the SMATR package. Proper reference is included.</p> <p>5. Sentence has been changed</p> <p>6. Material and Methods included the methodology during plant harvest and the new references described how work out in each case.</p> |
| <b><u>Optional/General</u></b> comments    | There are too many typo-graphical errors, please omit that.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Separate connected words and typo-graphical errors were generated during the manuscript sending. To solve this problem we included a pdf manuscript version.                                                                                                                                                                                                                                    |
