

SDI Review Form 1.6

Editor's comment:

The presented information was nicely written and well organized. The methodology was explained well and the used applications were sufficient. The findings of the study were discussed according to the purpose.

Very few minor notes should be corrected:

- * The first line of the " Introduction ", it was stated that :
(Cashew is the third export major crop generating foreign currency

It should be corrected to :

Cashew is the third **major** export crop generating foreign currency

- * In the " Methodology " it was stated that

..... one of the ten provinces in 60 Mozambique.

While few lines below, it was stated (.... the highest among the eleven provinces including Maputo city.

The question is how many provinces, 10 or 11 ??

- * Under the " **Theoretical framework** ", The third line - it was stated that " integrate a new technology into his/she production...

It should be corrected to - his/her

Author's feedback:

We performed the suggested corrections and highlighted them in green.

Regarding the number of provinces, there are 11 provinces, but one has a special designation (City). However, we corrected the statements that caused inconsistency in the manuscript.
