PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The Introduction section of the article is representation of the importance of pigeonpeas' pests. Materials and methods section have been prepared in accordance with the technical standards. Data obtained as a result of the study are evaluated in the appropriate form and authors cited the current references. Also the discussion and the results are based on actual facts and figures. I recommend the manuscript to be published, but, I argue that some minor corrections should be made before publishing.	1. We authors are highly obliged for the valuable corrections made by reviewers. 2. Recommended corrections have been made in the manuscript and that part has been highlighted with yellow colour. 3. The name of the statistical program used for data analysis has also been mentioned.
Minor REVISION comments	If the authors have used a statistical package program for the t-test and the regression equations, they should give the name of the program. In the manuscript, there must be a space between some words in the lines 162 and 165 lines.	
Optional/General comments
