SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This is a good and original research. If it is in your scope, I strongly suggest to publish this. There are some minor suggestions. Abstract: time period and brief method should included.	As per the suggestion of reviewer the time period of experiment has been added in the abstract. The brief method in abstract has already been included.
Minor REVISION comments	Material and Methods are very long in the text. Should be shorten.	All the points provided in materials and methods are very much essential for reproducing the study by scientist. Hence here I gave described all the methods in this point.
Optional/General comments
