

SDI Review Form 1.6

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_36809
Title of the Manuscript:	Metamitron and different plant growth regulators combinations in the chemical thinning of 'Eva' apple trees
Type of the Article	Short Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Knowing that the chemical thinning in pomiculture allows the increase of the quality of the fruits, it also reduces the cost and the time in relation to the manual thinning, the article shows clearly and objectively the possibility of using different products for this purpose, especially the use of metamitron.	The changes were made as suggested by the reviewer.
<u>Minor</u> REVISION comments	I suggest adding paragraphs 1 and 2 of the "Introduction".	
<u>Optional/General</u> comments
