SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	The research topic is of great interest. Researchers tried to find an alternative feedstuff in order to replace maize. In this study, they used fermented Taro cocoyam, which is I think it is reasonable and have scientific reason. The experimental is well design and the manuscript is well written. Their results are not only very useful for their country but also for other tropical countries. The results and discussion is suitable for publication.
