

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_31375
Title of the Manuscript:	TAXONOMIC COMPENDIUM OF PLANT COMMUNITY ON SHANKARACHARYA RESERVE FOREST
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
As far as the Mss revision is concerned authors have partially carried out the revision OR I can say they have just done 40% of what i suggested. Authors seems to be a bit careless which should not be the case if someone wants to publish in International journals. I have provided them some general suggestions which they have completely overlooked. I suggest authors to seriously revise the Mss as per previous comments. Just simply writing that "All the corrections has been done as per the suggestion on the pdf copy which was suggested by your goodself" DOES NOT GUARANTEE THE Mss acceptance in Journal. This time authors have included the photographs of some plants . These photographs are not of good quality(blurred). Additionally they have provided wrong photographs i have doubt on some plants identity <i>Adiantum capillus veneris</i>, <i>Trifolium fragiferum</i>, <i>Jasminium humile</i> ect... In plate 3 no grass photographs even then they written- Plate-3: Grasses and herbs in Shankaracharya Reserve Forest Major revision still required to be done in this Mss.
