SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	1. Mend the highlighted points in the manuscript file. The paper should be accepted only after the incorporation of the changes. 2. There are serious grammatical mistakes in the manuscript. Please go through the paper and mend those errors. 3. Add some more lines in the conclusion as well as abstract section. And for better representation of the study, follow the changes suggested in the list of GENERAL COMMENTS given below:	
<u>Optional/General</u> comments	1. The authors should have made use of species (richness & evenness) and populational diversity indices (Shanon's, Simpson's, Cody's etc indices) for the better reflection and interpretation of the floristics of the region. 2. The authors should have supplemented the photographic plates of herbs, shrubs and trees separately. 3. The authors should have provided details (classification) about the exotic and native species of the region. 4. The authors should have made the list of the species based on RET system of IUCN and Red Data book.
