SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Line 85 and 86. "New born kids (The newborns) were left to suckle their (mum's) dams freely for the first 6 days postpartum to enable the kids (them to) take advantage of colostrums". It is recommended to change the term kids, and use goatling or young. Same recommendation on line 94 For clarity of work, it is recommended to use the same format of columns and rows in the tables, maintaining the format of table 1 as a suggestion.	The newborns were left to suckle their mum's dams freely for the first 6 days postpartum to enable them to take advantage of the colostrum.
Optional/General comments
