

SDI Review Form 1.6

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_32990
Title of the Manuscript:	Effect of Hemoglobin and Potassium polymorphism on milk production traits in goats
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Comments on the article: M_JEI 32990 The word dairy performance is not appropriate as paper has focussed on milk production characteristic. Mention milk production characteristic. Line 84: CP and TDN %of the supplement may be given. The av. quantity offered may be mentioned. Results and discussion part is OK. Author should include more reference in the area of research and should discuss available information on large animals vis a vis result of this study on small ruminants. When findings of this work did not give strong reasons to conclude that potassium polymorphism could be used as selection criteria for milk production in goats, the author should also discuss the possible gaps that could be explored in future.	
Optional/General comments
