

SDI Review Form 1.6

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_36152
Title of the Manuscript:	Effects of the timing of water deficits on cotton water economy, growth, and yield
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper is well planned and executed. Discussion and interpretation of results are also fine. I only have a little doubt. I would think that, according to your description, you are not dealing with replicates but with repetitions. Please check. Some suggestions: in the abstract, please describe briefly your statistical methods, and provide a measurement of variation in your tables (i.e. standard deviation or standard error)	
Minor REVISION comments		
Optional/General comments
