**PART 1: Review Comments**

|                                     | Reviewer's comment                                                                                                                                         | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments | Author carried out with well plan but bit lack in scientific writing. Write precise with the tabulated values rather than by including all the parameters. |                                                                                                                                                                               |
| <b>Minor</b> REVISION comments      | Write with the significant of the values from tables. Not necessarily with statistically insignificant values.                                             |                                                                                                                                                                               |
| <b>Optional/General</b> comments    | May be accepted for the publication with precise                                                                                                           |                                                                                                                                                                               |
