PART 1: Editor's Comment:

	<u>Editor's Comment:</u>	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Topic of this manuscript is important for tomato resistance. But I have some suggestions to the authors. In part Materials and Methods should be important presented more information about parental forms and their hybrids. It will be good to mention geographical place, town, city, university, department, etc., where you evaluated this material. Latitude and longitude are OK, but not enough for scientific article. In part Results and Discussion should be pointed out your important results. In Conclusions should be briefly repeated ones more the most important of your results.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
