Subject: Re: Request for final decision for manuscript number 2013_AJEA_6771

Please find attached my final decision for manuscript no 2013 AJEA 6771. My decision is Accept after corrections according to AJEA requirements.

Editor's Details:

Sławomir Borek

Department of Plant Physiology, Adam Mickiewicz University, Poland.

Note: Modification was done in this document ONLY to hide the email id.

Attached Part:

The final decision for manuscript number 2013 AJEA 6771 entitled "An Analysis of the Adoption of Glyphosate Herbicide for the Control of Speargrass (*Imperatacylindrica*) by Yam Farmers in Guinea Savanna Agricultural Zone of Nigeria" by Ajanya S, Obinne CPO and Saliu OJ.

After evaluation of all documents related to the manuscript I agree with reviewers that the text is acceptable for publishing in American Journal of Experimental Agriculture. However, before the manuscript will be accepted, Authors must arrange the text according to the Journal requirements. Authors must carefully read the "Author's Instruction" (available at <http://www.sciencedomain.org/page.php?id=general-guideline-for-authors>) and change the manuscript according to this instruction. I recommend using 'MS word SDI paper template' which can be downloaded from above-mentioned web page.

The most important corrections needed are:

- Authors' names are missing
- Authors' affiliations are missing
- Numbers ([1] [2-4] etc.) must be introduced instead of authors' names of referred papers and the references (in REFERENCES, page 10-11) must be numbered in the order that they appear in the text; not alphabetically
- Figure 1 is not cited in the text
- After Conclusion, two additional subsections (COMPETING INTERESTS and AUTHORS' CONTRIBUTIONS) should be added.

My final decision is: Accept after corrections according to AJEA requirements.
