PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	Entire manuscript needs to be rewritten. It looks as though manuscript is a first draft. Authors are advised to refer any peer reviewed articles from reputed journals available online and finalise their manuscript. Introduction is not giving sufficient background information about the study conducted. All the traits used for the study may be abbreviated as followed by other workers so that it is easy for the readers to understand. Correlation table needs to be modified. W.r.t PCA lot of publications are available online and can be written accordingly. More clarity is required in the discussion so that it is easy for the readers to understand. Some of the suggestions are mentioned in the manuscript for the authors.	Reviewer's recommendations were considered, some passages of the manuscript were rewritten.
