

SDI Review Form 1.6

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_38343
Title of the Manuscript:	Proteomic analysis of natural and demucilaged coffee beans from plantations at different altitudes in the Mantiqueira mountains
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The manuscript describes the effect of different climatic conditions and processing methods on coffee beans chemical composition through protein analysis. It should be useful to improve the quality of coffee beans and beverage according to the results of this manuscript. It is also a good background to study the relationship between coffee metabolism and climate change, to improve the coffee trees' stress resistance ability under bad weather conditions, such hot, cold, drought and so on.	Thanks for your comments.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
