

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Experimental Agriculture International</a>
Manuscript Number:	Ms_JEAI_38652
Title of the Manuscript:	Soil Fertility as a Predictor of the Geospatial Distribution of Forest Species in Natural Regeneration in Brazil
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<ul style="list-style-type: none"> <li>The main correction is to be checked for grammatical errors native English speaker and typos</li> <li>All the references included in the text should be listed in the section "References" and written according to the right style and included the publication year.</li> </ul>	
<b><u>Minor</u></b> REVISION comments	<ul style="list-style-type: none"> <li>Please use soil science term such as simple samples (line 79), it should disturb samples</li> <li>There are some typo, such as specie. It should be written species</li> <li>The title of Table 5 should be written "correlation matrix (Pearson) between soil chemical attributes and spatial distribution 265 of....."</li> <li>In line 338-346, the sentences are not clear. Please change to be appropriate english</li> <li>In conclusions, line 440-444, the sentences are not clear. Please change to be appropriate English</li> <li>Please mention in the conclusion, which one of the soil chemical attributes which greatly affected forest species in natural regeneration.</li> </ul>	All suggestions were answered.
<b><u>Optional/General</u></b> comments
