

Editorial Comments:

As I stated earlier the results presented in tables have not been sufficiently described and discussed.

Moreover :

- Abstract and Acknowledgments has been prepared in a manner inconsistent to JEAI guide for authors. (<http://www.sciencedomain.org/page/general-guideline-for-authors>)

- Authors' contributions should be added.

- According to General Guideline for Authors, "Internationally accepted rules and the international system of units (SI) should be used. If other units are mentioned, please give their equivalent in SI." e.g. please use dt ha^{-1} (not q ha^{-1})

- Some of the abbreviations used in the manuscript are not explained (especially in tables. According to General Guideline for Authors "Tables should be explanatory enough to be understandable without any text reference".

With Best Regards

XXXXX

Author's Feedback:

Respected sir ,

I have explained and described the results sufficiently again, changed the abstract and acknowledgement as per JEAI guide. Alongwith this some authors contributions are added, units changed and required abbreviations used in manuscript and tables are explained below the table.

So, kindly accept and publish the paper.
