

SDI Review Form 1.6

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_39554
Title of the Manuscript:	Development and Validation of a Solid-Liquid Extraction with Low Temperature Partitioning (SLE/LTP) Method for Determination of the Herbicide Indaziflam in Brazilian Soils by High Performance Liquid Chromatography (HPLC-UV/Vis)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This is an interesting paper, however all references must be correctly numbered, for example in the manuscript reference 27 appears as first one, and there is not any reference with the number 1. Also, many references do not correspond with the citing text. Authors must be careful before to submit their paper because it is not possible to validate the information reported in the literature employing the given information by them. Additionally, some references do not mention indaziflam in any part of the paper, for example references 7,13, 22. I consider that this paper must be rewritten employing valid sources of information.	- The references were correctly numbered. - The references were correctly organized corresponding with the citing text. - Some references do not mention indaziflam, but these studies contain important information about the process of pesticides sorption in the soils. This information was used such support.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
