

SDI Review Form 1.6

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_40137
Title of the Manuscript:	EFFECT OF INDUSTRIAL MANUFACTURED ORGANIC AND ORGANOMINERAL FERTILIZERS ON SOIL pH, MAJOR NUTRIENTS AND THEIR INTERACTIONS
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This is incubation study. Availability of nutrients was studied at 90 days. Crop requires nutrients according to growth stages. So availability at 90 days only cannot be applicable. It should be studied periodically. Organic manure release nutrients somewhat later than mineral fertilizer, so periodical availability is essential.	Noted
<u>Minor</u> REVISION comments	Indicated in the manuscript.	
<u>Optional/General</u> comments	Availability of micronutrients may be added. Effect on soil microbial population may be added to justify the conclusion.
