General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Use of unconventional feed resource as alternative feed resources are the need of time especially when these feed stuffs having functional feed properties. The each and every part of manuscript are well structured, nicely presented and well discussed with few typing errors which are necessary for corrections and minor revision. Reviewer ask few queries and gave few suggestions to the authors before final shape of the manuscript and want clarifications/ justifications as highlighted/ indicated in the text which are mandatory. If possible author may suggest kindly analyzed the statistical data (Table 2) as per suggestion for better impact and quality and became technically sound both for authors as well as for the quality of the journal. In my opinion the manuscript may be accepted after minor corrections/modifications and justification.	Ok noted.
<u>Minor</u> REVISION comments	References in text as well as in the reference list authors should follow the standard pattern of writing. Few references may be incorporated and few may be deleted as per suggestions given in the manuscript.	
<u>Optional/General</u> comments	Need minor revision and corrections as indicated in the manuscript.
