

SDI Review Form 1.6

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_42187
Title of the Manuscript:	Elaboration of an open source prototyping platform for salubrity monitoring in agricultural machinery
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	In the introduction section, authors should provide more detailed information about other existing systems that monitor the health conditions of the working environment of the agricultural tractor operators. What is the standard error of this system for measuring temperature, humidity and noise level?	The authors agree with the reviewer and have made the suggested corrections. Regarding the standard error, the methodology and results are described in the lines 225-246 and 345-353.
Minor REVISION comments	The manuscript would be more convincing if author provide more data concerning the field experiment of this system. What is the function of LCD display used in this study? Does it able to display temperature, humidity or noise level in real time?	The authors agree with the reviewer and have made the suggested corrections.
Optional/General comments	The content of the manuscript is innovative and valuable, it deserves publication.
