

SDI Review Form 1.6

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_43375
	Morphometry and physiological quality of Moringa oleifera seeds in the function of their fruit position
Type of the Article	Original research papers

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	In line 152, replace "Descriptive estatistics....." by "Descriptive statistics....." In title of Table 1 replace ".....and quantity (Q) of fruits in the seeds <i>M. Oleifera</i>" by ".....and quantity (Q) of seeds in the fruits of <i>M. oleifera</i>". In Table 1, verify the consistency of results related with CV (coefficient of variation) (%), $CV (\%) = (\text{standard deviation}/\text{average}) \times 100$ In Table 2, verify the consistency of results related with CV (coefficient of variation) (%) for each variable. $CV (\%) = (\text{standard deviation}/\text{average}) \times 100$ In Table 2, replace "circularity index (mm)" and "circularity" by "roundness". About that, it is expected that the roundness has some effect on the physiological quality of the seeds?. In Table 3, verify the consistency of results related with CV (coefficient of variation) (%) for each variable. $CV (\%) = (\text{standard deviation}/\text{average}) \times 100$ In line 209 replace "seeds of the apical region obtained 42.2%...." by "seeds of the apical region obtained 48.2%.."	All suggestions were adhered to in the text and revisions in the statistics were made.
Minor REVISION comments	Each time they are first named in the text, abbreviations or acronyms must be described with their full name in parentheses. For example DIC in page 1 (Abstract section) and BOD in line 108. In line 176, replace "The seeds are medium Brown and globose,...." by "The seeds have a Brown color and globose shape, ..."	The corrections have been met.
Optional/General comments	Technical English must be polished.	The final version will be corrected by at least one native English speaker with experience in the area.
