

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_44248
Title of the Manuscript:	POSTHARVEST PHYSIOLOGY AND QUALITY OF PALM SPROUTS HARVESTED AT DIFFERENT TIMES
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
1. In title addition of scientific name of the particular palm gives the idea of actual crop, so it should be included 2. In result portion please mention cultivar name like "Gigante" or their specific code name like (BPG). Follow single trend for all parameters, means you should describe whole result & discussion portion only with cultivar name otherwise with their code name. 3. Conclusion should be reconfigured as I suggested. 4. Again check the whole manuscript and accept the correction I made.	1. PHYSIOLOGY AND POSTHARVEST QUALITY OF PALM SPROUTS (<i>Opuntia ficus-indica</i>) HARVESTED AT DIFFERENT TIMES. 2. Now follow the same trend and we opted for the code. 3. The conclusion was reconfigured as suggested by the reviewer. 4. The manuscript was revised and all corrections suggested by the reviewer were accepted. All suggestions were accepted. We are very grateful for your suggestions.
