PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The scientific paper has several flaws such as: in material and methods, the analytical method for the digestion of the samples is not well described, as it is not known what the temperature was used and has no citation for the method. The work is only a presentation of results, there is not enough discussion for a publication.	
Minor REVISION comments	It is important to state the name of the certified reference material used to ensure the accuracy and reproducibility of the analytical method.	
Optional/General comments
