Manuscript Number:	Ms_JEAI_37891
Title of the Manuscript:	The Effect of Different Doses of Calcium Nitrate Applications on some Phytonutrient Element Contents of Leafy Parsley (Petroselinum crispum (Mill.)) Plant
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The content of sections of the manuscript is inadequate. As seen in revised papers (first and the second), the authors did not take consideration the reviewer's comments. Just only very little additions and word corrections were done and this corrections- additions does not cause the paper adequate. So nothing was added new to the revised manuscripts. Still the problems mentioned in previous reviewer reports in all sections goes on. As I have mentioned in previous 2 reports this research is not original. And also as I have written before conducting this research in Turkey does not indicate that this research is original.
