PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The article is a complex study of the situation in the researched area. The maximum residue of the pesticides in the agriculture is a very complicated question. The use and misuse of the pesticides in rural areas are of great value for the developing world. The article contains very important questionnaire on the educational, marital, social status of the population that describe the use of the pesticides according to the status. The theme is very urgent and actual. The novelty of the positions in article is not new but still has a strong impact.	
<u>Minor</u> REVISION comments	The article is about constitution of facts according to the questionnaire and no concrete proposals on the cancellation of the usage of the pesticides bur still of a good value.	
<u>Optional/General</u> comments	The article is for sure worth of publication.
