**PART 1: Review Comments**

|                                     | Reviewer's comment                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments | <p>Statistical software used in data analysis should be clearly indicated in the abstract of manuscript. Ensure that all important components of the research are clearly captured within the abstract.</p> <p>Citations of quoted literature need to be inserted in the introduction otherwise it will plagiarism.</p> <p>Knowledge gaps should be clearly highlighted in the introduction.</p> <p>SE, CV and overall means should be inserted in the Table 2, 3 and 4.</p> <p>Result and discussion should be improved with recent citations.</p> <p>References and citations should follow journal guidelines. Journal names should be written in full/complete.</p> <p><b>Plagiarism Issue</b> - If introduction will not be cited accordingly, then it might result to plagiarism. Provide citations in the introduction</p> |                                                                                                                                                                               |
| <b>Minor</b> REVISION comments      | <p>Is your significance level 0.5 or 0.05, in line 99 and 101 respectively?</p> <p>In materials and methods, mention the specific/exact GPRS location of farmers farm in Okegun and Ondo town in Nigeria where soil samples were obtained.</p> <p>Mention the authorities to the methodologies/procedures used in used in data collection and analysis.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                               |
| <b>Optional/General</b> comments    | In line 92 , mention the persons, instead of 'researchers have shown that....'                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                               |
