

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_41862
Title of the Manuscript:	Genetic Diversity of First Sugarcane Varieties of Reunion-Ivorian Origin Preselected in Ferké, Ivory Coast
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	In materials & methods, please mention clearly what is the plant breeding material? Are they varieties, prereleased varieties, advanced breeding lines, germplasm etc In Results, again authors have wrote in Tableau 4. Index of preselected varieties, please confirm regarding the nomenclature of genotypes. In discussion part, author (s) have given details of genetic gain under "Genetic progress in yield " heading. There is no need to write the formula for calculation In conclusion, Please add future breeding implications from the current study Please add more latest references in the final manuscript .	
<u>Optional/General</u> comments	Highly commendable in conducting the experiment, then preparing and writing the manuscript. The language in the article is fine for the scientists, but as far as student audience s concerned it will be difficult for them to understand it. Author (s) are requested make the language more simple to attract the larger audience..
