

SDI Review Form 1.6

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_42076
Title of the Manuscript:	Influence of Date of sowing and number of cuttings on leaf yield and quality of seed in Palak (<i>Beta vulgaris var bangalensis</i>).
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	The article aimed to evaluate the sowing date (1st fortnight of October, 2nd fortnight of October and 1st fortnight of November) and number of cuttings (No cutting, one cutting, two cutting and three cutting) in Spinach beet=palak (<i>Beta vulgaris var bangalensis</i>) under temperate conditions of Kashmir. The paper contains an original study. Introduction section of the manuscript describes importance of spinach beet in terms of human nutrition and other agricultural aspect. The aim of the study was also clearly described at the end of the introduction section. The materials and methods used in the study were clearly described in the manuscript. Standard methods were given by references. The proper statistical analyses of the data were also described. Results were presented in a logical order. The data were also given by tables providing statistical significance. The findings of the study were satisfactory discussed in the related section. Relevant literature was used in the discussion of the findings. The implications of the study were given as conclusion at the end of the section. Relevant literature was cited in the manuscript. All references cited in the text were presented in the reference section. Writing style of the manuscript is academic and clear. The manuscript can be accepted for publication.
