

SDI Review Form 1.6

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_43086
Title of the Manuscript:	EVALUATION OF CULTURING METHODS FOR Scutellonema bradys IN YAMS
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The science is good, but the authors are in the way they write (which makes one wonder about their experiments). In vitro can be written as is or in italics, but the authors have used: In vitro, <i>In-vitro</i>, <i>In vitro</i>, in-vitro, <i>in vitro</i>, in vitro. Similarly, they write out Scutellonema or abbreviate it at random. And they write 30 g , but 0.1g. The names of chemicals used are written with a capital or without it. And so on. Language problems one can understand, but these inconsistencies are unacceptable. There were so many of them that some might have escaped me. Many improvements have been suggested in the text. I cannot trust the authors with the corrections so I ask that the revised manuscript be resubmitted. The References need to be carefully checked by the editor. Some journal names are abbreviated, others not (another inconsistency). The science was good, but the language poor with many mistakes. I recommend that the manuscript be accepted after revision and resubmission. The report and manuscript with track changes.	
Minor REVISION comments		
Optional/General comments
